

Middle School Campus at Annunciation

Our dedicated middle school faculty delivers a rigorous high school preparatory curriculum. This provides our students with opportunities to experience independence in an age-appropriate, yet structured environment.

Individualized schedules allow students to take electives in areas that interest them and interact with many different students throughout the day.

THE HCA MIDDLE SCHOOL EXPERIENCE

- ✓ **Mass** - Students actively live their faith by planning and leading weekly liturgies.
- ✓ **Schedule & Grading** - Students take core classes daily, and have time for their elective during the final period of every day. Electives include CSI, Leadership, STREAM, and more. After-school clubs include Bellarmine Speech, Math Club, Competition Robotics, Student Council, Student Ambassadors, and others.
- ✓ **Technology** - Students are one-to-one with Chromebooks and use the Google platform to share documents and assignments with their teachers. IXL is our online math program that allows teachers to track student progress and individualize instruction. Our Science program includes labs such as frog dissection and water quality testing.
- ✓ **Learning Consultants** - Our teachers work with dedicated middle school learning consultants to ensure instruction is differentiated to meet the needs of all types of learners.

*"The middle school is focused on that specific age range. The electives open their minds to being life-long learners. There are opportunities for the older students to mentor the younger ones."
- HCA Parent*

"Due to its unique structure, Holy Cross Academy can offer the children, specialty classes, giving them the ability to make choices in their classes and giving them confidence, which allows them to grow. Another plus is that the teachers work together as a team, bringing new ideas and multiple ways to view a situation." - HCA Parent
